**General Description:**

89 lg tons maximum rated lifting capacity; dim. Of barge, 140 ft 0 in. Lg over-all, 70 ft 0 in. Extreme beam, 12 ft 6 in. Extreme depth, 5 ft 11 in. Extreme draft; hoist data, 89 lg tons at 80 ft 0 in. Radius main hoist capacity, 14 ft per min main hoist speed, 15 lg tons at 122 ft 6 in. Radius whip hoist capacity, 79 ft per min whip hoist speed; boom data, structural type boom, 123 ft 6 in. Lg of boom from center of hinge pin to center of whip hoist sheave, 104 ft 6 in. Maximum boom working radius, 55 ft 0 in. Min boom working radius; steel hull; rotation data, 1/3 rpm speed of rotation, 360 degrees of rotation; barge propelled by towing

**Specification Or Standard:**

Design 264b

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
