Overall Length:

14.75 inches

Overall Height:

8.75 inches

Overall Width:

11.4 inches

Usage Design:

Underwater

Model Number:

Pro 4

Maximum Operating Depth Rating:

305.0 meters

Engine Type:

Electric motor

Operation Method And Control Type:

Radio data program

Product Name:

Rugged ip-65 base remotely operated vehicle

Voltage In Volts:

240.0

Functional Description:

Quickly and effectively performs a variety of basic underwater tasks in challenging environments with an added level of protection; power requirements: 100-240 vac , 50~60hz; 40 kg (89 lb); 2 watertight rugged hard cases; submersible housing material: anti-salt water corrosion material; operating temperature: 0°C to 40°C; propulsion (4.2 knots speed); horizontal/vertical; (forward , backward & left, right / up & down); direct drive/geared; 100 mm propellers/65 mm propeller; camera main: high resolution - ntsc or pal format; color and b&w (550tvl / 470tvl); view angle: 90° Horizontal/140° Diagonal - wide angle; vertical tilt: 180° Control; lighting: (2) optimized led arrays: forward looking beam spread covers entire range of main camera; 3, 600lumens, dimmer system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
