Major Diameter:

1.750 inches

Thread Length:

3.000 inches

Overall Length:

10.088 feet

Outside Diameter:

2.500 inches

Surface Finish:

Smooth machined

Unit Type:

Propeller shaft section

Construction:

Solid

Thread Quantity:

5 per inch

Usage Location:

Inboard port

Forward End Design:

Tapered

Forward End Keyway:

Not provided

After End Keyway:

Not provided

Forward End Coupling Design:

Detachable

Threaded Forward End:

Included

Forward End Major Diameter:

2.150 inches

Forward End Thread Quantity:

5 per inch

Forward End Thread Length:

2.153 inches

After End Design:

Tapered

Threaded After End:

Included

Forward End Taper:

0.750 per foot in inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T08000
