Inside Diameter:

10.650 inches

Overall Length:

25.500 inches

Outside Diameter:

11.600 inches

End Application:

Propulsion line shaft onboard 210 ft wmec coast guard vessels

Mounting Method:

Shrink fit

Special Features:

Material specification q q-c-390 b alloy number c96400 type ii

Material:

Copper and nickel

Material:

Copper and nickel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T274-e
