**End Application:**

Weapons system propulsion systems

**Pressure Rating:**

180.0 pounds per square inch

**Special Features:**

Used on me11040 control unit, air clutch, ytb tugboats

**Material:**

Aluminum

**General Description:**

Used on ytb tugboats, includes manifold, 3 poppet valves, pneumatic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
