Inside Diameter:

33.850 inches

Overall Length:

97.000 inches

Outside Diameter:

36.400 inches

End Application:

P/n 400wagb-4301-1-wing; shaft propulsion wing onboard wagb 400 ft u.S. Coast guard vessels

Mounting Method:

Shrink fit

Special Features:

Liner, propulsion shaft, unfinished, fwd; astm-b-369-93 uns alloy c96400, centrifugal cast rotating mold; p-243-0361 liner type 2

Material:

Copper alloy, qq-c-390, alloy 964 and nickel

Material:

Nickel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T274-e
