Cylinder Quantity:

3

Starting Method:

Electric

Cooling Type:

Direct water

Product Name:

Optimax 90

Special Features:

Hp at prop: 90; bore/stroke (inch): 3.63 x 3.00; ignition system: pcm 07; starting: electric; gear ratio: 2..33 to 1; steering: remote; alternator: 60-amp/756-watt belt-driven; fuel induction system: 2 stage direct fuel injection; shaft length: 20/25 inches; dry weight: 375 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T274-a
