Special Features:

Rotary seal

General Description:

Pressure to 10 bar, temperature to 180 degree c, surface speed to 10m per second, rotational speed to 3600 rpm, carbon rotary face 99.7 percent ceramic or sintered silicon, 316ss rotaryholder hastelloy c springs epdm or fkmelastomers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
