Overall Length:

24.0 feet

Outside Diameter:

2.50 inches

End Application:

Boat, personnel

Unit Type:

Complete shaft

Construction:

Solid

Usage Location:

Any acceptable

Forward End Keyway:

Provided

After End Keyway:

Provided

Threaded Forward End:

Included

Threaded After End:

Included

Product Name:

Aquamet marine shaft

Special Features:

Item is rated for tensile strength of psi 130, 000; tension psi 105, 000; torsion psi 70, 000; and brinnel hardness rate of 302

Material:

Steel, stainless

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08000
