**Overall Length:**

3.510 feet

**End Item Name:**

Mine sweeper; fairing-boom assembly

**Usage Design:**

Specific

**Controlling Agency:**

Edo marine and aviation systems

**Manufacturer Identifying Number:**

Mk 105, model 751b

**Boom Design:**

Collapsible

**Middle Boom Extension Accommodation:**

Not included

**Special Features:**

Connecting holes to next assembly are pilot holes, drill to size upon installation to ensure alignment; material aluminum alloy 7075-t73, qq-a-250/12 and astm b22l and io133-1002 with epoxy polyimide coating

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T341-c
