Overall Length:

3.510 feet

End Item Name:

Mine sweeper; fairing-boom assembly

Usage Design:

Specific

Controlling Agency:

Edo marine and aviation systems

Manufacturer Identifying Number:

Mk 105, model 751b

Boom Design:

Collapsible

Middle Boom Extension Accommodation:

Not included

Special Features:

Connecting holes to next assembly are pilot holes, drill to size upon installation to ensure alignment; material aluminum alloy 7075-t73, qq-a-250/12 and astm b22l and io133-1002 with epoxy polyimide coating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T341-c
