Overall Height:

0.500 inches

Overall Diameter:

9.500 inches

Fragility Factor:

Rugged

End Application:

Submarine trash disposal unit

Special Features:

Compatible with specified fiberboard. The adhesive must maintain its pressure sensitive properties after application and drying and in a temperature range of minus 40 to plus 160f; upon removal of protective covering, the adhesive shall be capable of instant adhesion to galvanized steel and be compatible with salt water

Material:

Wood

Surface Treatment:

Weather resistant outer surface coated with pressure sensitive adhesive protected by easy off paper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
