Section Quantity:

5

Opening Width:

15.438 feet

Operational Direction:

Vertical

Operation Method:

Powered

Opening Height:

19.229 feet

Construction:

Interlocking horizontal slat

Guide Type:

Channel track

Counterbalance Method:

Helical steel springs

Special Features:

Fitted w/bbl attached to hollow shafts at top of door turned by worm and spur gear, fitted with 4 portable pilasters ea consisting of 2 opposed channel guides secured to central stiffner

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc

Surface Treatment:

Galvanized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T274-v
