Overall Length:

108.000 inches

End Application:

Hood vent

Special Features:

Standard air requirement 250 cfm per lineal ft; exhaust volume 2250 cfm; hot water consumption 9.30 gpm at 40 psi, 11.20 gpm at 60 psi, 13.00 gpm at 80 psi; flow pressure 30 psi min 80 psi max; water temp 140 degrees min 180 degrees max; 7 3/4 in hot water supply; 1 1/2 in drain sz; static pressure 1.46 in w.G. At duct collar; electrical 440v primary 115v secondary; 60 hz; single phase; fail safe thermostat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
