End Application:

Array assembly no los angeles class ssn (688)

Specific Usage Design:

Ejection system high efficiency inlet door (star board side)

Design Type:

Adjustable

Operation Method:

Manual

Member Minimum Thickness For Which Designed:

4.800 inches

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A513u0
