**Overall Length:**

6.250 inches

**Overall Height:**

0.500 inches

**Overall Width:**

2.750 inches

**End Application:**

Hardward for structural closures

**Product Name:**

Controlling device - lh

**Special Features:**

Assembly consists of: bi-way latchkeeper; flat washer, self locking nut; coil spring lh helix, bumper, screw, nbr.10 24unc-2a 1-1/2 lg., self locking nut, flat washer, nbr.10x.036/.045 thk, 13/6 (id)x9/16(od) , spindle sleeve brace

**Material:**

Stainless steel and rubber synthetic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
