Overall Length:

6.250 inches

Overall Height:

0.500 inches

Overall Width:

2.750 inches

End Application:

Hardward for structural closures

Product Name:

Controlling device - lh

Special Features:

Assembly consists of: bi-way latchkeeper; flat washer, self locking nut; coil spring lh helix, bumper, screw, nbr.10 24unc-2a 1-1/2 lg., self locking nut, flat washer, nbr.10x.036/.045 thk, 13/6 (id)x9/16(od) , spindle sleeve brace

Material:

Stainless steel and rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
