Overall Height:

0.750 inches

End Application:

Hatch assembly

Design Type:

Rotary

Operation Method:

Manual

Criticality Code Justification:

Feat

Special Features:

Military critical; 2.0 inch diameter; half inch square shank center; outer edge eccentric with gripping groove; material nichol, copper, aluminum alloy

Material:

Copper alloy and aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513u0
