Design Type:

Oscillating arm

Throw Angle In Deg:

120.0

Actuating Shaft Length:

0.530 inches

Actuating Shaft Largest Diameter:

0.390 inches

Voltage In Volts:

24.0

Special Features:

Dynamic park; low side switched; water-resistant motor and plug connectors; left hand motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T239-a
