Maximum Operating Pressure:

4350.000 pounds per square inch

Overall Length:

67.000 inches

Overall Diameter:

16.800 inches

Port Screw Thread Diameter:

56.0 millimeters

Err Default:

Err default

Special Features:

Capacity is 140 ltrs; operating temp: -54 degrees c to 71 degrees c; liner material is 6061-t6 al. Alloy; resin material is epoxy; reinforcement material is carbon/glass; approved gases is air

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T164-c
