Control Device Type:

Electric

Mounting Hole Type:

Thru hole

Mounting Method:

Bolted

End Application:

Patriot

Component Quantity:

2

Component Document Origin:

Industrial

Document Source:

49956

Document Type:

Bill of material

Usage Design:

Operation of radar

Control Side:

Right side

Adjustment Type:

Tilt and vertical

Seating Capacity:

1

Features Provided:

Armrest and lumbar support

Maximum Weight Capacity:

400.0 pounds

Product Name:

Chair, pedestal assembly

Color:

Black

Material:

Steel chair frame

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
