Body Material:

Aluminum alloy and wood

Cylinder Quantity:

8

Battery Quantity:

1

Prime Mover Type:

Diesel engine

Engine Brake Horsepower:

335.0

Engine Horsepower Rating Speed In Rpm:

2100.0

Battery Voltage Rating In Volts:

12.0

Transmission Type:

Manual

Forward Speed Quantity:

5

Seating Capacity:

41

Features Provided:

Air conditioning

Passenger Door Quantity:

1

Axle Drive Type:

Conventional

Axle Speed Quantity:

1

Rear Wheel Mounting Type:

Dual

Wheelbase:

254.75 inches

Front Wheel Tread Width:

80.12 inches

Rear Wheel Tread Width:

71.12 inches

Multifuel Design Feature:

Not included

Brake Actuation Method:

Air

Storage Compartment Type:

Baggage

Door Construction:

Sedan

Emergency Door Quantity:

0

Engine Inclosure Type:

Vehicle body

Engine Mounting Location Within Body:

Rear

Special Features:

W/storm wind0ws

Functional Description:

Base transportation

Departure From Cited Document:

As modified by air conditioning and storm windows

Reference Number Differentiating Characteristics:

As differentiated by name and model year 1965

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A37500
