Cylinder Quantity:

6

Battery Voltage Rating In Volts:

12.0

Transmission Type:

Automatic

Seating Capacity:

28

Features Provided:

Radio and air conditioning and power steering

Axle Speed Quantity:

6

Rear Wheel Mounting Type:

Dual

Multifuel Design Feature:

Not included

Brake Actuation Method:

Air

Engine Mounting Location Within Body:

Front

Product Name:

28 passenger medium duty shuttle bus

Engine Power Rating:

215.0 horsepower

Special Features:

Diesel engine with hybrid electric propulsion & support systems; 60 gallon fuel capacity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A37500
