Body Material:

Steel and wood

Overall Length:

200.000 inches

Overall Width:

89.000 inches

Body Type:

Inclosed

Storage Facility Type:

Compartment

Storage Facility Quantity:

60

Capacity Rating:

3.00 tons

Wheel Arrangement Style:

Front tricycle, single, rear, single

Parking Brakes:

Included

Suspension Type:

Individual coil spring and through shaft axle

Retractable Support Feature:

Not included

Drawbar Type:

Rigid a-frame

Distance From Body Front To Drawbar Coupler Center:

45.500 inches

Service Brake Type:

Electric

Drawbar Characteristic:

Fixed

Drawbar Coupler Type:

Lunette

Towing Pintle Hook:

Included

Hinged Tailgate:

Not included

Storage Facility Access Location:

Side

Fold-down Side:

Not included

Special Features:

Pac afje /type of service for which designed/ light maintenance shop

Reference Number Differentiating Characteristics:

Mounted on ord type m2 chemical trailer chassis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T277-m
