Overall Length:

265.125 inches

Overall Height:

120.000 inches

Overall Width:

130.500 inches

Engine Model Number:

Aos-895-3

Engine Manufacturer Name:

Continental motors corp

Starting Method:

Electric

Transmission Type:

Automatic

Engine Quantity:

1

Engine Type:

Gasoline

Personnel Capacity:

1

Engine Cylinder Quantity:

6

Engine Cooling Method:

Air

Forward Travel Maximum Speed:

35.0 miles per hour

Cab Design:

Closed

Winch:

Not included

Cab:

Included

Ground Track Length:

157.125 inches

Center To Center Distance Between Tracks:

102.500 inches

Engine Brake Horsepower At Specificationified Rpm:

363 bhp at 3800 rpm

Ammunition Compartment:

Not included

Cargo Carrier Type:

Body

Transmission Drive Method:

Torque converter

Air Compressor:

Included

Auxiliary Generator:

Not included

Dozer Accommodated Hydraulic Pump:

Included

Electrical System Voltage Rating:

24.0

Towing Attachment Location:

Front

Engine Mounting Location:

Front

Track Width:

21.000 inches

Accommodated Towed Vehicle Power System:

Air and electric

Engine Torque Rating At Specificationified Rpm:

760 ft lb at 2060 rpm

Special Features:

Noone

Reference Number Differentiating Characteristics:

Name

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T277-y
