Overall Length:

13.250 inches

Overall Width:

10.000 inches

Special Features:

Irregular shape, welded construction; 1.000 in.H, 0.179 in.Thk; 0.765 in.Dia two holes; 0.531 in.Dia two holes; 0.515 in.Dia two holes
unequally spaced, one fscm 19207 p/n 79799 69 handle welded to right side flange; fsc application data: landing gear, trailer bolster

Material:

Stainless steel

Material Specification:

Fed qq-s-698 temper 3 to 5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A526j0
