Concentric Hole Depth:

2.062 inches

Pin Diameter:

0.747 inches

Pinlength:

3.750 inches

Material Hardness Rating:

Between 59.0 rockwell c and 62.0 rockwell c

First Locking Groove Width:

0.344 inches

First Grease Relief Groove Length:

1.250 inches

First Grease Relief Groove Depth:

0.188 inches

Special Features:

Thread series designator npt

Material:

Steel

Material Specification:

Sae 1022 assn standard single material response

Style Designator:

Pin type, counterbore

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
