Design Type:

Mainspring w/auxiliary leaf

Spring Deflection Rate:

Between 260.000 pounds per inch and 290.000 pounds per inch

Elliptic Shape:

Semi

Rebound Clip Quantity:

4

Bushing Type:

Plain

Spring Length Under Load:

52.250 inches

Material:

Steel comp 5150 or steel comp 9260

Material Specification:

Qq-s-624, amend 2-canceled federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A02900
