Lining Material:

Steel, stainless

Compressed Length:

6.000 inches

Stroke Length:

4.000 inches

Travel Length:

16.325 inches

Product Name:

Shock absorber, shuttle soft stop

Special Features:

Capacity: energy condition: 30220" / lb, normal energy condition: 20000" / lb, 9000lb at 2-1/2 ft/sec + 2700lb drive force

Supplementary Features:

Operating temperature: 20 to 300f, operating cycle: 1 cycle per 45 seconds

Fsc Application Data:

Shuttle soft stop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A07200
