End Application:

Mrap - common nsn - used on mrap no permanent wsd identified and 1 other weapon system

Operation Method:

Hydraulic

Piston End Connection Style:

Captured bushing

Cylinder End Connection Style:

Captured bushing

Extended Length:

845.0 millimeters

Compressed Length:

532.0 millimeters

Protective Shield Type:

No protection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07200
