Overall Length:

20.000 inches

Overall Width:

4.000 inches

Mounting Position:

Right front

Vehicle Design Control Activity:

0f6v7

Special Features:

Right front strut on elevation frame for 5.5m transportable; has eight 0.6905 inch mounting holes; paint is semi-gloss white per st. Specification 700-026; thickness is 1.72 inch stk; nha nsn 5895-01-379-0125, central communications

Material:

Aluminum alloy

Material Specification:

Alloy 6061-t6 or 6063-t6 assn standard single material response

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
