**Overall Length:**

20.000 inches

**Overall Width:**

4.000 inches

**Mounting Position:**

Right front

**Vehicle Design Control Activity:**

0f6v7

**Special Features:**

Right front strut on elevation frame for 5.5m transportable; has eight 0.6905 inch mounting holes; paint is semi-gloss white per st. Specification 700-026; thickness is 1.72 inch stk; nha nsn 5895-01-379-0125, central communications

**Material:**

Aluminum alloy

**Material Specification:**

Alloy 6061-t6 or 6063-t6 assn standard single material response

**Surface Treatment:**

Paint

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**
