Overall Length:

73.75 inches

Overall Width:

1.10 inches

End Application:

2310-01-595-3986, truck, ambulance

Mounting Method:

Bolt

Mounting Position:

Body rear

Product Name:

Rail, rear drip

Vehicle Design Control Activity:

19207

Vehicle Identification Designator:

Truck, ambulance

Special Features:

Thickness: 0.50 inches nominal, height: 1.30 inches, mounting holes: 11 each 0.156 inches diameter.

Color:

Tan

Material:

Aluminum alloy

Material Specification:

6061-t6 astm b209 assn standard all material responses or 6061-t4 astm b209. Assn standard all material responses

Surface Treatment:

Paint

Surface Treatment Specification:

Tan 686a assn standard all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A507r0
