Product Name:

Shock absorber, direct action

Extended Length:

23.82 inches

Compressed Length:

16.06 inches

Special Features:

Piston rod shaft shall be hard chrome plated to a thickness of .0002" min, reserve tube shall be steel with a wall thickness of .075"

Special Test Features:

With shock absorber temperature at 50f to 100f, resistance shall be 100lb maximum to move a full compression stroke in 30 seconds max.

The shock absorber shall demonstrate continuous operation for 2hrs min at a temperature of 275f min without affecting damping performance

Specification Data:

96906-dod-std-00100d (ar) government standard and 80204-ansi y14.5m-1982 professional/industrial association standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07200
