Major Diameter:

1.000 inches

Overall Length:

5.500 inches

Outside Diameter:

1.750 inches

Bearing Type:

Plain

End Application:

5840-00-320-8670, radar set, an/mps-19

Securing Hole Quantity:

2

Length From Universal Joint Spider Centerline To Hub End:

2.750 inches

Bore Style (non-core):

Err-090

Keying Facility Quantity:

1

Hub Bore:

Included

Hub Securing Hole:

Included

Securing Hole Location:

Radially spaced 90 degrees c to c

Securing Hole Thread Size Designator:

5/16-18 nc2 thd size

Outside Shape:

Round

Distance From Centerline To Keying Facility:

0.612 inches

Special Features:

Width: 0.252 in. ; connection end type: hub; reference data and literature: 31p2-2mps19-4, fig. 69-15, 69-39; truck mounted

Style Designator (non-core):

Err-090

Fsc Application Data:

Elevator, antenna tg-34/mps-19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A521w0
