Keyway Width:

0.191 inches

Bore Diameter:

1.004 inches

Bore Length:

1.125 inches

Keyway Length:

1.125 inches

Bore Type:

Plain straight

Center To Center Distance Between Link And Shaft Holes:

3.750 inches

Shaft End Thickness:

1.125 inches

Features Provided:

Keyway

Shaft Securing Method:

Keyway

Material:

Iron

Material Specification:

Qq-i-666, grade 2 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524p0
