Design Type:

Torque converter

Features Provided:

W/manually actuated forward speed lockout device

Special Features:

W/specification wheel designation 13.500; rotation viewing input end, clockwise; input rpm maximum no load governed 2840; rated input torque stall lb-ft 484

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A521r0
