**End Application:**

2320-01-230-0307

**Securing Hole Quantity:**

2

**Bore Style (non-core):**

Err-090

**Securing Hole Location:**

At the end of both joints

**Universal Joint Style:**

C3

**End Component Type And Location:**

Universal joint both ends

**Universal Joint Connection End Type:**

Err-070

**Shaft Facility Spline Quantity:**

4

**Shaft Spline Quantity:**

4

**Special Features:**

Functional description: used to connect steering column to steering gear box

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A522h0
