Shaft Diameter:

88.8 millimeters

First End Connection Type:

Flange, rectangular w/holes

Second End Connection Type:

Flange, rectangular w/holes

Flange Width:

95.2 millimeters

End Application:

NSN2-32-001-5442

Flange Length:

50.8 millimeters

End Component Type And Location:

Universal joint both ends

Nominallength:

600.7 millimeters

Product Name:

Pshaft, spl55, flg

Special Features:

Extended length w/ universal joints - 679.4 mm; 4 holes (12.9 mm each) at flange corners, separated by 90 degrees; to include permanent lubed joints; do not paint splines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522h0
