Groove Depth:

0.955 inches

Bearing Surface Width:

0.9063 inches

End Application:

Grumman aircraft, model a10

Rim Style:

Curved base

Design Type:

Divided wheel

Design Form:

Disk

Hub:

Included

Bearings:

Included

Mounting Type For Which Designed:

Single tire

Bearing Quantity:

1

Bearing Inside Diameter:

1.625 inches

Hole Location:

9/16 in. From centerline of wheel

Disk Type:

Double

Lightening Hole:

Not included

Bearing Type:

Roller

Valve Hole Shape:

Round

Tire Rim Diameter:

9.000 inches

Tire:

Not included

Hub Characteristic:

Demountable

Lubrication Fitting:

Not provided

Axle Recess Major Diameter:

Between 2.625 inches and 2.656 inches

Axle Recess Minor Diameter:

Between 2.062 inches and 2.094 inches

Hub Style:

Tapered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T307-s
