Width:

2.000 inches

Thickness:

0.312 inches

Hole Arrangement Style:

Double even

Lining Style:

Segment plain

Arc Length:

6.875 inches

Minor Radius:

3.000 inches

Application Type:

Dry

Hole Type And Quantity:

6 counterbored

Features Provided:

Rigid friction lining

Attachment Method:

Riveted

Special Features:

Holes counterbored on inner arc and both ends chamfered 5/16 in. By 1/8 in. On inner arc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
