**Fabrication Method:**

Compressed

**Width:**

2.250 inches

**Overall Length:**

5.688 inches

**Thickness:**

0.125 inches

**Hole Arrangement Style:**

Double even

**Strengthening Feature:**

Interwoven wire

**Lining Style:**

Rectangular block plain

**Application Type:**

Dry

**Hole Type And Quantity:**

8 counterbored

**Features Provided:**

Rigid friction lining

**Surface Condition And Location:**

One side ground

**Attachment Method:**

Riveted

**Supplementary Features:**

This item has been reviewed for asbestos material; the current approved sources, 28718 have indicated their part number contained asbestos prior to 1984, they continue to manufacture the same part number without asbestos material after 1984

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
