Fabrication Method:

Molded

Width:

3.000 inches

Thickness:

0.250 inches

Hole Arrangement Style:

Double even

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

5.562 inches

Minor Radius:

6.500 inches

Application Type:

Dry

Hole Type And Quantity:

4 countersunk

Features Provided:

Rigid friction lining

Attachment Method:

Riveted

Special Features:

Countersunk on outer arc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
