**Fabrication Method:**

Molded

**Width:**

3.000 inches

**Thickness:**

0.250 inches

**Hole Arrangement Style:**

Double even

**Friction Lining Material:**

Asbestos composition

**Lining Style:**

Segment plain

**Arc Length:**

5.562 inches

**Minor Radius:**

6.500 inches

**Application Type:**

Dry

**Hole Type And Quantity:**

4 countersunk

**Features Provided:**

Rigid friction lining

**Attachment Method:**

Riveted

**Special Features:**

Countersunk on outer arc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
