Fabrication Method:

Woven

Width:

2.000 inches

Thickness:

0.250 inches

Hole Arrangement Style:

Single

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

24.750 inches

Minor Radius:

4.000 inches

Application Type:

Dry

Hole Type And Quantity:

18 counterbored

Features Provided:

Flexible friction lining

Attachment Method:

Riveted

Special Features:

Counterbore on inner arc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
