Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/2530-00-319-5847

Fabrication Method:

- Woven
- Width:
- 2.000 inches
- Thickness:
- 0.250 inches

Hole Arrangement Style:

Single

Friction Lining Material:

Asbestos composition

- Lining Style:
- Segment plain
- Arc Length:
- 24.750 inches
- Minor Radius:

4.000 inches

Application Type:

Dry

Hole Type And Quantity:

18 counterbored

Features Provided:

Flexible friction lining

Attachment Method:

Riveted

Special Features:

Counterbore on inner arc

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A230a0
