**Fabrication Method:**

Woven

**Width:**

7.000 inches

**Thickness:**

0.375 inches

**Strengthening Feature:**

Internally molded-in reinforcement

**Lining Style:**

Bulk lining

**Application Type:**

Dry

**Features Provided:**

Flexible friction lining

**Supplementary Features:**

This item has been reviewed for asbestos material. The current approved sources 34712 have indicated thier part number contained asbestos prior to 1984. They continue to manufacture the same part number without asbestos material after 1984

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A230a0
