Fabrication Method:

Molded

Strengthening Feature:

Internally molded-in reinforcement

Application Type:

Dry

Segment Quantity:

1

Features Provided:

Friction lining

Surface Condition And Location:

One side ground

Actuation Method And Location:

Lever external

Special Features:

Friction material rubber per drawing 19204 11619271

Supplementary Features:

This item has been reviewed for asbestos material; the current approved sources, 19204 have indicated their part number contained asbestos prior to 1984, they continue to manufacture the same part number without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
