Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/2530-00-602-1134

Fabrication Method:
Molded
Width:
3.000 inches
Thickness:
0.250 inches
Hole Arrangement Style:
Double staggered
Strengthening Feature:
Interwoven wire
Friction Lining Material:
Asbestos composition
Lining Style:
Segment plain
Arc Length:
35.000 inches
Minor Radius:
6.719 inches
Application Type:
Application Type: Dry
Dry
Dry Hole Type And Quantity:
Dry Hole Type And Quantity: 16 counterbored
Dry Hole Type And Quantity: 16 counterbored Features Provided:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life: N/a
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life: N/a Unit Of Measure:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life: N/a Unit Of Measure:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life: N/a Unit Of Measure: Demilitarization:
Dry Hole Type And Quantity: 16 counterbored Features Provided: Rigid friction lining Attachment Method: Riveted Special Features: Counterbore on outer arc Shelf Life: N/a Unit Of Measure: Demilitarization: No
