End Application:

Grumman a-10 aircraft

Design Type:

Pivoting spindle

Axle Construction:

Bar

Track Width:

42.000 inches

Distance Between Spring Seat Centers:

20.000 inches

Furnished Axle Components:

Hub and tie rod and spindle

Special Features:

Cross-sectional shape: round; design form: straight; yoke location: on spindle; wheel type: pneumatic tire; c to c distance between beam kingpin holes: 33.000 in.; largest wheel bearing surface dia: 2.995 in.; spindle lg: 4.500 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514s0
